THE BERNSTEIN STANDARD

Using the finest European standards in design and experience, Bernstein produces instruments of distinction. Each instrument boasts the finest AAA grade soundboard spruce sourced from Siberian mountain-spruce, supreme German Roslaü strings, and hand-picked Wurzen hammer felt from Germany. Bernstein only selects the finest materials to offer you a premium piano.

Bernstein's dedication to precision provides optimal implementation of high-tech machines and indispensable mastery and quality control, resulting in Bernstein's benchmark instruments which are acclaimed and revered worldwide. With this marriage of tradition and innovation, Bernstein is able to offer a wide range of pianos from the beginner's instrument to the professional concert grand.

Bernstein pianos are built to the highest European and Australian standards. Boasting continuous private ownership over the past 40 years, Bernstein Australia holds a unique position as a leading piano company.

Each Bernstein meets three strict criteria;

- Built strong for Australia from the best parts available, with modern production techniques
- The most musically satisfying piano for the classical repertoire and contemporary pianists alike
- Real pianos. European sound. Realistic price.
With this in mind, Bernstein is proud to announce and bring you the new Bernstein "Platinum Series"

ADMIRER HERITAGE

Since 1979, it has been our dream to make Bernstein the premier Australian piano. This dream has finally been made possible with the Bernstein Platinum series, thanks to the help of the expert team of piano technicians and sound engineers from around Australia and Europe.

Bernstein pianos have stood the test of time in some of our most demanding performance venues, radio studios, churches, and homes. Young pianists have fuelled their musical passion at the National Bernstein Piano Competition – proudly Australia's longest running piano competition. Television and radio shows have flourished around its name; long running programs like the Team of Pianists' Bernstein Piano Hour and television's Piano Talk series.

Bernstein holds a proud history, particularly the close relationship with renowned German piano designer, Klaus Fenner. Please visit the website www.bernsteinpianos.com.au to explore the Bernstein heritage.

Bernstein has passed every test to be a registered Australian trademark at the highest level.

Bernstein is offered throughout Australia at specialty dealers; selected for their outstanding level of service and expertise. You can trust that your new piano will be meticulously prepared, carefully delivered and service supported for the future.

Experience the choice for pianists demanding the finest piano money can buy at a family price. Of course, 10,000 Australian owners cannot be wrong.
