From the Heart of Italy

At the headquarters of Orla in Castelfidaro, Italy, a dedicated musical team uses decades of "sound development" to create the ultimate sound experience.

In 1957, Nazzareno Orlandoni began manufacturing musical instrument parts. Joined by his brother-in-law in 1965, he chose the name ORLA and established a factory in Castelfidaro, Italy, producing famous electronic organs throughout the 1970s and 1980's. Today the company is in the hands of the second generation of the Orlandoni family.

Loved by Australians

For over 10 years the Orla brand has been owned and loved by Australian institutes, restaurants, classrooms, studios and homes. Imported by one of Australia's largest piano and organ distributors, Musico, the Orla range was carefully selected to fill a gap in the market for a simple, high quality digital piano range. Orla digital pianos are dealer-backed with full Australian warranty, and built for your long term enjoyment!
