

# THE SOUND OF ITALY

**ORLA**  
The Sound of Italy

# STAGE STARTER

## The new standard in digital pianos.

The Orla Stage Starter offers an exceptionally beautiful sound not often found in introductory models. With outstanding richness, gentle sustain and warm bass, this model is ideal for the budding pianist. The elegant Italian styling is matched by a solid build quality along with a handful of useful features for piano enjoyment. Available in portable or cabinet style.

## STAGE STUDIO

### A versatile instrument for the dynamic pianist.

The Orla Stage Studio delivers an enhanced sound experience for the pianist, thanks to superior positioning of the speakers. The generous display makes it easy to select from the features and quality sounds. This model offers the addition of a handy 2 track sequencer with playback, plus connection enhancements including Bluetooth connectivity and MIDI. Available in portable or cabinet style.

## STAGE CONCERT

### The thrill of a creative digital piano!

The Orla Stage Concert offers additional power for extra sound resonance. With a host of creative features, it is the perfect performance partner for stage, studio or home. A popular model for its huge selection of voices, particularly with dedicated pipe organ and orchestral banks. Enjoy the unlimited creativity of a multi-track sequencer, and the versatility of an easy USB stick plug in. Available in portable or cabinet style.

# ORLA GRAND PIANOS

The Orla Digital Grand Piano is a sophisticated instrument with magnificent looks and beautiful sound. Renowned for its extensive selection of features, this instrument boasts one of the most user-friendly layouts on the market. The panel of buttons is inviting for the pianist, and you will discover a superb selection of sounds and rhythm arrangements within. Featuring the acclaimed FATAR TP40 GH keyboard, this new series offers superb playing response for the beginner and advanced pianist alike. Flexibility is endless; with the new generation of features and connection options, allowing your musical creativity to be unleashed.

This flagship line of Digital Grand Pianos leaves no stone unturned; play it as an orchestra or simply as a grand piano. You can set it to play during your next party. You can travel the musical world with its exceptional range of rhythm backings. Experience the enjoyment of this sensational instrument for your home or venue.

The Orla Digital Grand Piano model 120 offers an elegant solution to the space conscious pianist. With no compromise on features, you will be sure to enjoy this beautiful instrument in your home.

Step up to exceptionally thrilling sound and aesthetic with the magnificent Orla 500. Often mistaken for a real grand piano, the stunning cabinet houses 8 speakers with a shattering 80 watts of power, for an electrifying musical experience.

## The New Standard in Digital Pianos

Orla offers the culmination of European style; with instrument sounds sampled and modelled in the laboratory in Italy. Orla artists from Italy, England, Germany and Holland, make sure that the sounds are ideal plus that each rhythm arrangement on the grand piano models is exciting and musically rewarding to play. Orla is the perfect musical partner for the beginners and for the professional player alike.

## Generations of Expertise

The Orla story began when Nazzareno Orlandoni created a company to manufacture parts for accordions and reed organs in 1957. Joined by his brother-in-law, he chose the name ORLA and in 1965 established a factory in Castelfidardo, the musical instrument capital of Italy. The company went into the production of electronic organs and quickly established a reputation in the world market. Today, the Orla board of Directors is the second generation of the founder's families.
